MESSAGE

On the momentous occasion of Lamdon Model Senior Secondary School's Golden Jubilee, marking 50 glorious years of educational excellence and academic contributions to people of Ladakh, I extend my heartiest congratulations to the students, the faculty and the management of the school.

The school has chosen a very appropriate theme "**Connecting People through Science, Compassion, and Universal Ethics**" for the year. It embodies knowledge, empathy, social values and inclusiveness.

Lamdon Model Senior Secondary School's academic pursuits and cultural diversity make it one of the exceptional institutions in Ladakh which reflect our region's rich heritage. Resultantly, the school has produced many outstanding personalities who have excelled in various fields and brought pride to our region.

I am sanguine that Lamdon Model Senior Secondary School will continue to maintain high educational standards and subscribe admirably in shaping the future generations of Ladakh. I am also positive that the school administration will further prioritise the experiential learning, innovations, use of technology, start-ups and linkage with local industries for the better overall progress of the students.

I wish the school all the success in their academic and extracurricular missions.

Brig. (Dr) BD Mishra,
Lt. Governor, UT Ladakh
